## Curtains & Blinds Cost Guide

For Whangarei & Northland Homes (2026)

## Welcome

Hi, I'm Anita from Curtains Blinds & Design Whangarei. This guide has been created to help you understand realistic local pricing, what influences cost, and how to plan your window furnishings with confidence — whether you're ready to order now or still in the research phase.

## What Does It Cost?

Product Type	Typical Price Range (per window)
Roller Blinds	\$450 – \$750
Dual Roller Blinds	\$750 – \$1,100
Sheer Curtains	\$1,200 – \$1,900
Blockout / Thermal Curtains	\$1,600 – \$2,800
S-Fold / Wave Curtains	\$1,800 – \$3,200

## What Affects Pricing?

Pricing is influenced by window size and height, fabric choice and fullness, lining type, track or hardware style, installation access, and the overall layout of your home. This is why online pricing can be misleading and why in-home advice is so valuable.

## New Builds vs Existing Homes

**New Builds:** Best planned before gib stopping. Allows for recessed tracks, cleaner finishes, and a more integrated look.

**Existing Homes:** Surface-mounted tracks work beautifully. Good styling and proportion make the biggest difference.

## Common Mistakes to Avoid

Ordering too early or too late in the build, choosing fabric without considering light and heat, under-budgeting for large or tall windows, mixing styles that don't flow through the home, and choosing cheap installs that cause long-term issues.

## How I Work

I offer free in-home consultations, honest and practical advice, custom-made curtains and blinds, professional installation, and support at any stage of your planning — even if you're not ready yet.

**Servicing Whangaeii & Northland**
